

Testing, Adjusting, Balancing Proposal

Date: 10/2/2023

To: Gregory - Portland ISD

From: Art Olivares III

Quotation Number: 303295

Project Name: G-P ISD AgriScience

Portland, TX

DESCRIPTION

For your consideration, we propose AABC Certified testing and balancing, as per the mechanical plans and specification section 230593. This proposal is based on the following:

SCOPE OF WORK

- AABC Certified Air Balance
- AABC Certified Hydronic Balance

QUALIFICATIONS

- ♦ All work is based on regular working hours from Monday through Friday, 8:00 am to 5:00 pm.
- ♦ No overtime or shift differential is included in this proposal unless specifically noted.
- ♦ Cost associated with additional mobilizations due to equipment not being ready or equipment which cannot be final tested per plans and specifications will be handled as a change order. test
- ♦ One return trip to check/verify deficient items at the jobsite has been included in this quotation. Written notification that the deficiencies have been corrected is required before our return visit. If additional trips are required to retest deficiencies, the time will be billed at an hourly rate plus remobilization charge.
- ♦ The contractor shall provide DDC Software to operate any automated controls and/or provide a qualified technician onsite to operate the systems.
- ♦ This quotation is based on all systems being completed and properly started, in normal operating condition and all areas unoccupied at the time of testing.
- ♦ Adjusting and balancing will be made within the limitations of the equipment being tested. All additional material and labor cost associated with the installation or replacement of drives, sheaves, belts, motors, dampers, fuses, etc., required to make equipment and/or devices meet specifications are to be provided outside the scope of this proposal.
- ♦ Installation of clean filters in air handling equipment is not included.
