Gregory-Portland ISD

RFQ# 2425-03 Testing and Balance Services for

1) New All Purpose Practice Facility

Gregory-Portland Independent School District intends to retain the services of a qualified Mechanical (HVAC) and Electrical Systems Test and Balance provider to provide Testing and Balance Services for the above-referenced project. Test and Balance firms are invited to submit a qualifications proposal based on the scope of services described below.

1.0 Background

The new All Purpose Practice Facility is located at 4600 Wildcat Drive, Portland, Texas 78374.

2.0 Scope of Work

The primary role of the successful Testing and Balance Provider is to measure and adjust water flows to meet design requirements.

Additionally, the successful Testing and Balance Provider shall actively assist the Contractor, Installer, and Design Professional in developing solutions to non-conforming work or unforeseen design conflicts. Final resolution and contract documentation will remain the responsibility of the Contractor and Design Professional.

Provide Mechanical (HVAC) and Electrical Systems TAB services as listed in the Contract Documents. The TAB Provider shall collect and tabulate system test data, make field observations and coordinate closely with other construction trades such as electrical, mechanical, temperature control and design teams.

1. Conduct a kick-off meeting with the Contractor, including installation subcontractors, to discuss the Test and Balance scope, coordination, and schedule as identified in the Test and Balance specifications.
2. Review Contractor Construction Schedule. Verify that the schedule indicates the logical system, equipment, and component installation, inspections, testing, and Test and Balance sequence required to maximize schedule efficiency.
3. Review applicable Contractor submittals concurrent with the Design Team reviews. Review requests for information and change orders for impact on Test and Balance and Owner's objectives. Provide the Owner and Design Professional with Jobsite Observation Reports after each visit.

4. Develop project-specific Test and Balance Authority Construction Checklists and Inspection Checklists for use in installation verification, testing documentation, and installation compliance.
5. Update and maintain the project Testing Matrix. Review Contractor's site-specific testing agent(s) and plan. Matrix shall include a log of system deficiencies and resolution. All system non-compliance shall be logged and resolved.
6. Participate in pre-installation meetings for materials, systems, and assemblies, as identified in the construction documents.
7. Conduct site visits during construction to observe component and system installations. Attend job-site meetings to obtain information on construction progress as requested by Owner. Review construction meeting minutes for revisions and substitutions relating to the Contract Documents. Assist in resolving any discrepancies identified during regular site inspections. Begin site visits upon the acceptance of the proposal by the Owner after the contractor has received their Notice to Proceed. Provide Jobsite Observation reports after each visit.
8. Review and approve equipment startup reports.
9. Review and approve air and water systems Test, Adjust, and Balance reports furnished by Certified Agency.
10. Coordinate and witness systems tests performed by installing contractors. Provide recommendations for retesting and system improvements until systems operate as best as possible and as intended.

Acceptance Phase (Before Substantial Completion)

Testing and Balance during the acceptance phase shall demonstrate that the performance of the systems installed during the construction phase meets the requirements of the Contract Documents. The acceptance phase must occur before Substantial Completion. The Test and Balance Authority shall complete the following:

1. Transmit to the Contractors one (1) electronic and three (3) hard copies of Test and Balance Documentation to be inserted into the Operation and Maintenance (O&M) Manuals. Documentation shall include:
 - a. Completed testing forms
 - b. Ongoing optimization guidelines and detailed, equipment-specific maintenance recommendations.
 - c. Updated Design Summary from the design professionals.
2. Transmit one (1) electronic copy of the Testing and Balance Documentation listed above to the Owner.
3. Review the TAB process and report with Owner's operational staff, including system maintenance requirements.
4. Review Contractor's Operation and Maintenance manuals and assist with Owner training to ensure that operational staff understands how to operate and maintain systems.

Occupancy / Operations Phase

Testing and Balance during the Occupancy / Operations Phase is intended to assist the facility operating staff in identifying any defects in the installed equipment or system operation. The Test and Balance Authority shall complete the following:

1. Conduct seasonal and/or deferred systems testing, and provide completed functional test reports.
2. Submit an electronic copy of the Summary TAB Report.
3. Schedule and attend two warranty walkthroughs at month 2 and month 10 after Substantial Completion) before the end of the warranty period.

3.0 Schedule

Tentative based on product availability.

4.0 Statement of Qualifications

It is the Owner's intent that the person designated as the **Mechanical (HVAC) and Electrical Systems** Test and Balance Provider (Test and Balance Authority), and the key staff members, exhibit the following:

1. Testing and Balance Provider shall have a minimum of one or multiple of the following qualifications/certifications:
 - a. Licensed Engineer in the State of Texas
 - b. Certified Test and Balance Professional by either ASHRAE, NEBB, AABC, or others as approved by Owner.
2. Acted as the principal Test and Balance Provider for at least five similar-type projects.
